

K-Love has touched myself and many, many others in the small community in which I live. I can recall the day in which I discovered it on the radio, in many ways it has changed my life on a day to day basis. I have always been amazed that it reached us here, out in the middle of nowhere, it is truly a blessing from God. I know many here will be deeply disturbed along with myself if K-LOVE were to be displaced by a LPFM broadcaster. There is NO other programming that would suffice. The Programming that K-LOVE provides is much more than music, much, much more. It inspires us to live better lives, to have courage to walk in this day an age of diversity with faith, knowing that we are not alone. Please..... Do Not take K-Love off the air, you would effect countless lives by doing so.
